

Logistics

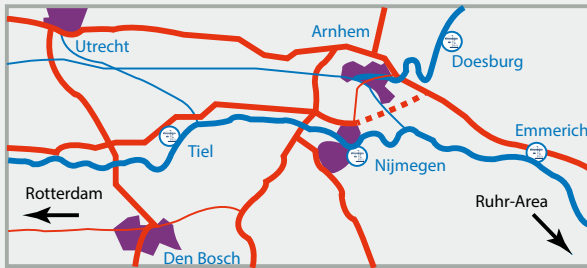

East NL: Your logistic link to Europe

In East Netherlands, a close cooperation exists at all levels between companies, government agencies and institutes of higher learning. This contributes to the creation of the best investment climate possible.

Easy access to EU

Logistics Valley and Logistic Region Twente

East Netherlands Part of a great international network

It is in the Dutch DNA to work together, which is why collaboration between shipping companies, transport companies and government work closely together in different areas.

“DHL has deliberately chosen to invest and locate in East Netherlands. The ready availability of well-educated personnel at all levels, the short distance to the German border- yet with all the advantages of the Dutch customs and and fiscal benefits for our clients - are all convincing reasons to locate here. Additional advantages of this region are the close proximity to six international airports and the excellent infrastructure”.

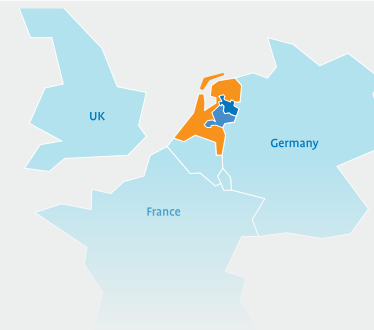

Don Brewel,
Commercial Director LSH Benelux
at DHL

“The Twente region is accessible in many ways; by rail, water and road. The modern Combi Terminal Twente (CTT) is just next door. This allows us to take containers from the ships directly to our distribution center and visa versa. This location offers great opportunities”.

Johan Milliau,
CEO Bleckmann

Oost NL has partnered with over **875** companies for success in Europe

Top talent

Due to its position in Europe, the East Netherlands attracts many international PhD students and researchers. Hosting three international schools, the region offers a quality setting for international talent workers and their families.
