

North Sea neighbours

East Netherlands has a longstanding (trade) relationship with the United Kingdom. Our economic ties are strong: companies on both sides of the North Sea trade with each other, import and export numbers are high and over 100 British companies have established their business in East Netherlands. The strengths of the eastern provinces of The Netherlands lie in the sectors **Food, Health, Tech & Energy**: sectors that many British regions also have key industries in. Moreover, the **favourable logistical position** makes East Netherlands a valuable trading and investment location!

M Business climate

5 reasons to choose East Netherlands

- 1. Market access to 500 million European consumers:** East Netherlands is located strategically between two key European metropolitan areas: the Amsterdam Rotterdam region and the German Ruhr area.
- 2. Short product to market times:** East Netherlands is home to three world-class universities and research institutes, all offering companies in the region access to new ideas, product development, human capital and infrastructure.
- 3. Motivated and educated employees:** East Netherlands has a highly educated, internationally oriented workforce. And the level of English, German and other language skills are excellent!
- 4. Competitive fiscal climate:** A competitive statutory corporate income tax rate in Europe – 25% (15% on the first € 245,000).
- 5. East Netherlands offers a lovely living environment** with excellent international schools.
