

Accelerate your business in East Netherlands: Digital Health Hotspot

East Netherlands is unique as a testbed and development location for innovative medical technology companies and has the largest agglomeration of Digital Health companies in the Netherlands. With several larger HealthIT companies nearby and a strong cooperation of over 300 businesses, small and large healthcare providers, knowledge institutes and investors within the Health Valley network, this thriving and still growing ecosystem is the place to be to boost your digital health innovation into Europe.

East Netherlands: a vibrant Health ecosystem

Only in East Netherlands you can find such a strong, vibrant representation of qualified Health business partners, technologies, talent and government support.

This ecosystem is boosted by a funding injection from the EU of €110 billion Euros, to help companies such as yours to succeed with Life Sciences & Health Europe.

If your company is active in the Health value chain, East Netherlands is the place to be.

"We chose the Netherlands as our European base because of the strategic location, large start-up scene, strong medical research institutes and focus on innovation."

Chris Land
VP of Europe Sales for Lunit

M Business climate

Health Valley is the largest network in the Netherlands that fosters and supports technological innovations in health care. Health Valley provides a unifying platform for universities, care institutions, companies and governmental authorities to exchange information and collaborate in setting up innovative projects.

The international Health Valley Event in March each year is the largest Health innovation congress in the Netherlands.

Top talent

The region has leading entrepreneurial academic research centers: Wageningen University & Research (Food Research), Radboud University & Medical Center, Nijmegen (Life Sciences & Health) & University of Twente Enschede (Medtech & Technical Medicine). The Universities and Applied Sciences Institutes in the Netherlands strongly support relevant scientific studies that are closely linked to this growing market.

Number of students, East Netherlands

source: CBS, 2018/2019

Due to its position in Europe, the East Netherlands attracts many international students and researchers. Hosting three international schools, the region offers a quality setting for international talent workers and their families.

Funding

Innovation in Life Sciences & Health is one of the funding priorities within the European Union (EU). These funds are also an important vehicle to connect our Life Sciences & Health ecosystem to other important hot spots in Europe. The EU has made significant investments in Life Sciences & Health in recent years.

As a partner of the Dutch and EU governments, Oost NL is a qualified intermediary in helping you to access EU, national and regional funding.

Market access

The Netherlands is a gateway to European markets, with an open market approach, business-friendly fiscal climate, and a multilingual workforce.

- 244 million consumers within 2-3 days by road
- 170 million consumers within 1-2 days by road

6 International airports in 1.5 hour drive
